Introducing **SDTRONICS**, Your Bridge to Seamless Automation

With immense pride, we extend our warmest greetings and introduce ourselves as a leading Automation Cable Fabricator that stands as a testament to over 30 years of excellence and innovation. With an unwavering commitment to quality, reliability, and optimum service, SDTRONICS emerges as one of the trusted brands in the automation landscape.

BRAND PILLARS

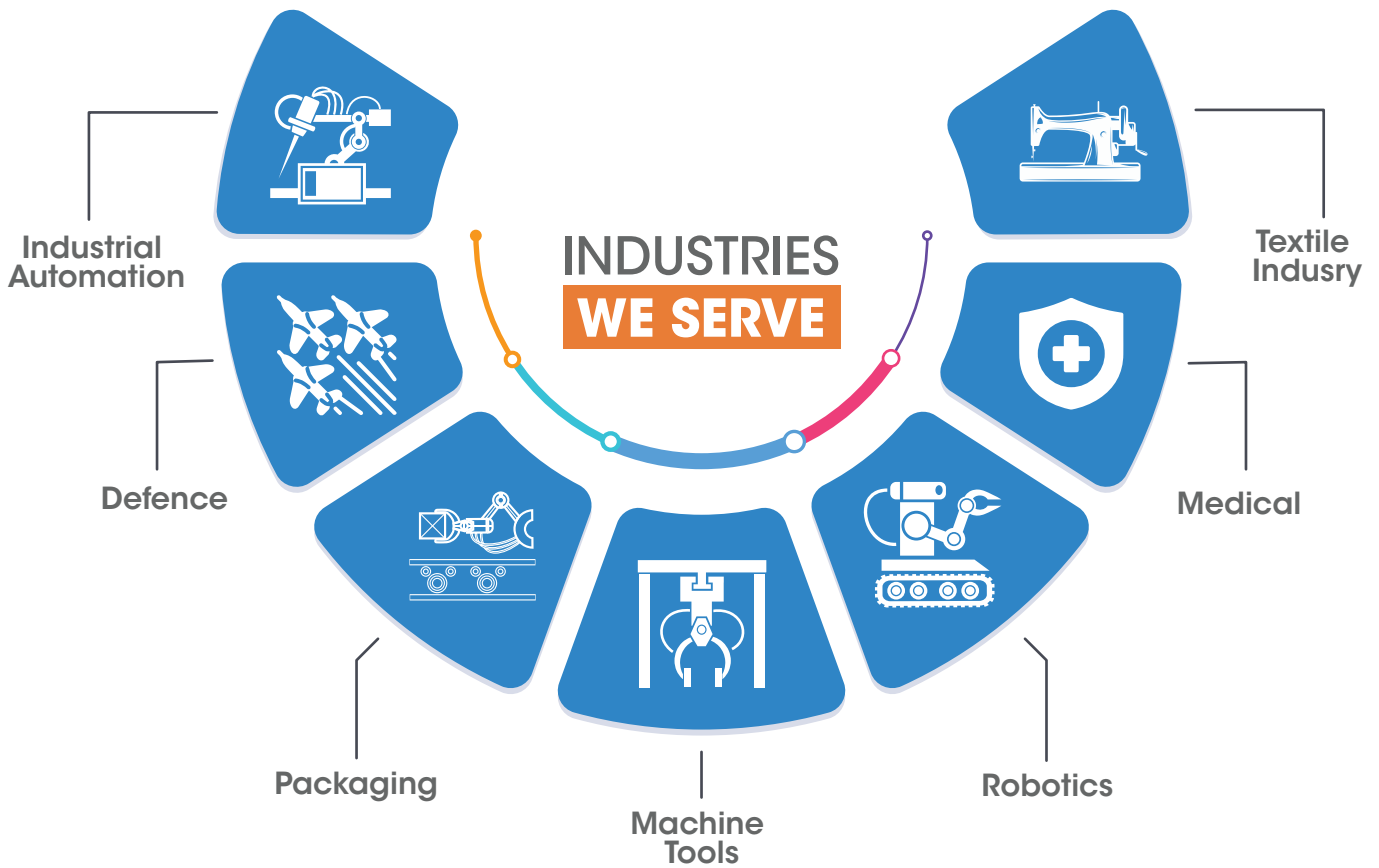

PRODUCT

Drawing upon our extensive experience in the world of automation and cable assembly domain, we have honed our expertise to bring to you the best automation cables and related products. Our products are a reflection of superior engineering and meticulous craftsmanship. We offer wide product range with the portfolio spanning from power cables to intricate communication solutions.

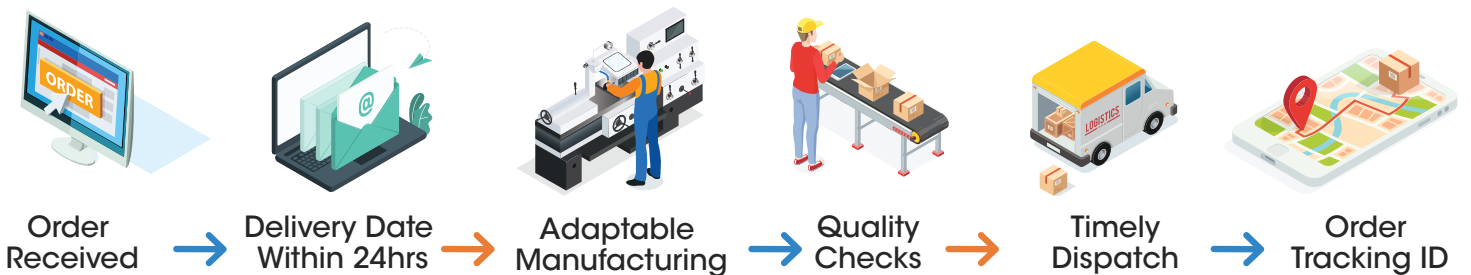

With a legacy rooted in quality. We dream big under the **"Make in India"** program.

PROCESS

At SDTRONICS, efficiency is at the core of our operations. Our streamlined process ensures prompt and seamless delivery of products to our valued customers.

Our manufacturing process ensures complete transparency and reliability from the outset. The stringent quality standards and detailed material checks provide the foundation to our production performance. Our extended support provides seamless communications and tracking.

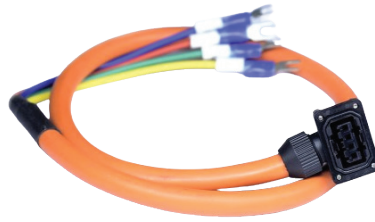

SERVO POWER AND ENCODER CABLES

SERVO POWER AND ENCODER CABLES

750W POWER CABLES FOR
DELTA SERVO DRIVES & MOTOR

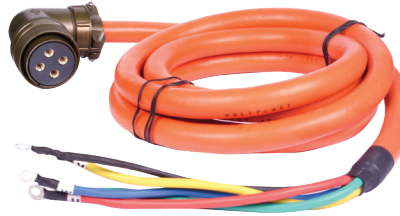

750W MRJ-SERIES
POWER CABLES
